MEMORANDUM FOR: Deputy to the Director for National
Intelligence Programs Evaluation

SUBJECT: Evaluation of Personnel on COMOR

1. The following evaluation of personnel on COMOR is based on the personnel on the committee about four months ago. The reason for this is that recently there have been changes in the representation from three agencies, namely, Army, Navy, and NSA, and I would need more experience with these gentlemen before I could make a fair evaluation.

2. After stating the agency and the representative, I then indicate on the basis of available information important background experience likely to bear upon capabilities, followed by my brief personal evaluation which I understand will be held in confidence.
